

MU-39 Supercardioid Dynamic Capsule Module

Features

- Patented shock absorber and suspension design for ultra-low touching noise.
- Features a unique anti-pop multi-layered metal grille and presents a high dynamic range, wide frequency response and low feedback for softer, mellower and misty sound quality.

Specifications

Type	Dynamic
Frequency Response	50 Hz – 18 kHz
Polar Pattern	Supercardioid
Output Impedance	600 Ω
Sensitivity	-53 dBV / Pa
Upper Grille	Multi-layered anti-pop metal grille with round top
Lower Grille	Dual-layer metal mesh
Middle Ring	Patented anti-rolling design
Color	Champagne
